

HavenKey - Real Estate AI Lead Qualification & Follow-Up Workflow

System Design

1. System Architecture

2. Lead Routing

Category	Meaning	Workflow Action
HOT	High buying readiness and requires timely sales attention.	Sales team is notified through Slack. Qualifying prospects can proceed to property consultation scheduling.
WARM	Interested but requires further follow-up.	Lead is routed for follow-up and remains available for sales review.
COLD	Currently better suited for nurturing.	Lead remains recorded for future nurturing and review.

3. Key Outputs

Output	Purpose
Google Sheets Lead Record	Stores prospect information and AI qualification results for tracking and review.
Slack Sales Notification	Surfaces leads requiring sales attention with relevant prospect and qualification information.
Google Calendar Consultation	Schedules a property consultation for qualifying prospects.
Prospect Confirmation Email	Confirms that the prospect's property enquiry has been received.

HavenKey - Real Estate AI Lead Qualification & Follow-Up Workflow

Process Flow

Step	Stage	What Happens
1	Prospect submits an enquiry	The prospect provides property requirements and buying information through the enquiry form.
2	Lead information is recorded	n8n captures the submission and records the prospect's information in Google Sheets.
3	AI assesses buying readiness	The enquiry is analyzed and the system recommends HOT, WARM, or COLD with supporting reasoning.
4	Lead is routed	n8n directs the lead to the appropriate path based on the recommended category.
5	Sales team is notified	Leads requiring attention are surfaced to the sales team through Slack.
6	Consultation is scheduled	Qualifying prospects can have a property consultation scheduled in Google Calendar.
7	Confirmation email is sent	The prospect receives an automated email confirming that the property enquiry has been received.
8	Human sales review continues	The sales team retains control over final qualification, property discussions, negotiations, and sales decisions.

Human Oversight

The AI classification is a recommendation. The sales team remains responsible for final lead qualification, property discussions, negotiations, and sales decisions.

Technology Flow
